VOL. XXII, NO. 121 GAINESVILLE, FLORIDA, WEDNESDAY, JUNE 28, 1905 TEN CENTS A WEEK

ROOSEVELT WILL NAME THE DATE

Both Countries Have Agreed Upon Representatives.

EVERYTHING IS NOW FAVORABLE

The Question of An Armistice Remains in Abeyance, Japan Even Declining to Take Up the Matter—Rains Are Falling in Manchuria.

St. Petersburg, June 27.—Both Japan and Russia are now understod to have agreed on the time when their plenipotentiaries shall meet at Washington. It will be during the first ten days of August, but the exact date probably will be announced by President Roosevelt.

The question of precedence evidently is the main stumbling block to a prompt settlement of the number of personal negotiations. Both sides seem desirous to make the other take the initial move. Russia seems to consider that it is Japan's duty to name her plenipotentiaries before Russia announces hers. While the exact number of plenipotentiaries has not been officially arranged, both powers seem to have tacitly agreed on three. The actual announcement of the names of the plenipotentiaries is expected within a few days. The official statement of the situation is:

"All is going on favorably."

The question of a possible armistice as stated last week, remains in abeyance for the moment, Japan, it is understood declining even to take the matter up until the issues involved in the Washington meeting are definitely settled. In the meantime there have been heavy downpours in Manchuria and the rainy season may enforce a suspension of military operations before the diplomats can act.

M. Nelidoff, the Russian ambassador to Paris, and Baron Rosen, the new Russian ambassador to Washington are Russia's tentative selections of plenipotentiaries. Mr. Takahira, the Japanese minister here, it is understood, has been selected by his government as one of the plenipotentiaries but the name of the ranking Japanese envoy cannot be learned. It is not believed that Marquit Ito will be able to come, and it is possible that Field Marshal Yamagata may take his place. This information comes from a high source, but it is understood that no formal announcement can be made until it is learned whether M. Nelidoff's health will permit him to make the trip here.

We're Not Living Too Fast.

Chicago, June 27.—Susan B. Anthony, now in Chicago on her way to the annual meeting of the National American Woman's Suffrage association, beginning in Portland, Ore., on June 29, expressed optimistic views of America life and progress. "I don't think Americans are living too fast," she said. "The eager, ambitious, keen, striving life of the United States is but an indication of the youth and vitality of the country. We wanted to beat England in running fast trains—well, we've done it."

Witnessed Wife's Suicide.

Dayton, O., June 27.—Mrs. Henry Neiter, whose husband is employed at a bottling works, went to her husband's place of employment and taking a position in an alley directly under a window from which her husband witnessed her act, drank the contents of a phial of carbolic acid. The deed was committed before her agonized husband could interfere. The motive is unknown. The woman died shortly after reaching a hospital.

Rebels Defeat Germans.

Capetown, Cape Colony, June 27.—The rebel leader Marengo has attacked and defeated a German force commanded by Captains Seibert at Amoas the Karas mountains, German Southwest Africa. All the German ammunition and supplies were carried off by the rebels. The losses are reported to have been heavy.

TWENTY-TWO CADETS DROWN..

Danish Training Ship Rammed by a British Steamer.

Copennagen, Denmark, June 27.—A serious disaster occurred last night near here when the Danish cadet training schooner Gorgestage was rammed and sunk by the British steamer Ancona.

The Gorgstage sank in one minute and a half. Twenty-two cadets were drowned and 57 rescued.

The boys were all in their bunks at the time of the disaster. The night was overcast, but it was not so dark that objects could not be seen at some distance. The Ancona was considerably damaged along her water line.

The port authorities have placed an embargo on the Ancona which will remain here until the inquiry into the collision is completed. Thus far only a single body has been recovered by the divers who have gone down to the wreck.

The Gorgestage was a schooner of 28 tons register, and was 103 feet long. Apparently she was a training vessel for the mercantile marine and was owned by a private firm of Copenhagen.

VICEROY CURZON MAY RESIGN.

Ruler of British India Does Not Approve of New Law.

Simla, June 27.—It is freely rumored that the viceroy, Lord Curzon, of Kedleston, has either already tendered his resignation or shortly will do so, in consequence of the decision of the home government whereby Lord Kitchener, commander in chief of the forces in India, has been given complete control of the army in India.

The two special meetings of the Indian council have been held since the publication in London of the Blue Book referring to Lord Kitchener's plans, the aproval of which is considered to be a severe blow to Lord Curzon, since he and practically the whole council unanimously advised against the decision ultimately adopted.

The keenest excitement prevails in official circles here. The Times of India, declares that India cannot afford to lose "either of the great men, Lord Curzon or Lord Kitchenor, who dominate her affairs."

Will Discard Sixteen-Inch Gun.

New York, June 27.—The ordinance exports of the United States are said to have practically decided that the 16-inch gun, from which so much was expected, is not practicable for a weapon and a decision by the war department to abandon the type is anticipated. Only one of these guns has been so far made, and that one is now at Sandy Hook. The experiments, while showing that the guns could do all that was expected of it in one way have nevertheless convinced the experts that as a weapon it is too costly. Colonel Greer, of the Ordnance department of the east, said that while it had not been decided to discard the gun now at Sandy Hook, it was likely in his opinion that the government would never have another made.

Riksdag To Consider Separation.

Stockholm, June 27.—As a result of the negotiations between the different groups of the Riksdag it has been arranged that a special committee to consider the Swedish-Norwegian situation shall be appointed to consist of nine Conservatives and three moderates from the first chamber and five liberals and five agriculturalists and two reformers from the second chamber. It is anticipated that the government's proposal to settle the crisis amicable by arranging a modus vivedndi between the two countries will be violently attacked in the upper chamber and generally supported in the lower chamber during the debate tomorrow on the subject.

Snake Frightens Girl to Death.

Manitowoc, Wis., June 27.—Frightened into convulsions when she accidently stepped on a snake which lay coiled up in the grass, Calla Huebner, the 12-year-old daughter of Mr. and Mrs. William Huebner, living north of this city, died here. The reptile was not a venomous one and her death ensued from fright and not from a bite.

RUSSIAN POLAND IN THROES OF REVOLT

Cities of Warsaw and Lodz Under Martial Law.

BUSINESS IS AT A STANDSTILL

Victims of Friday's Riot Reach Five Hundred and Sixty-One Dead, and Over Seven Hundred Wounded—Further Trouble Feared.

Warsaw, Russian Poland, June 26—2:25 p. m.—The Jewish districts are now in full revolt. The shops and the stores are closed, and traffic has become stagnant. The street cars have been operated to form a nucleus for barricades.

Great crowds are assembling in the streets, and the ugly temper of both the populace and the troops threatens to break out in bloodshed at any moment.

Thirty-four battalions of infantry are stationed in the town.

A bomb was thrown last night under a carriage occupied by the chief of police, K. M. Pavloff, of the town of Czenstochowa, government of Piotrkow. The chief of police and seven other persons were seriously wounded.

The city has the appearance of a military encampment. Infantry and Cossacks are bivouacked in the streets and patrols are circulating everywhere. She shops largely are closed but cabs and cars are still running.

Barricades have been erected at the corner of Ogrodowa and Zelazna streets, and occasionally the crack of a rifle is heard as strikers shoot at men going to work.

General Maximovitch, the governor-general of Warsaw was appointed on March 5. He is a former Hetman or chief, of the Don Cossacks. On March 30 an imperial rescript was issued urging Maximevitch to elaborate police reforms. On April 3, the governor general summoned the editors of the Warsaw papers to the castle and talked to them freely and in the most friendly manner, especially on the question of censorship inviting them to come in case of any difficulty.

The next day Maximovitch prohibited the sale of revolvers, pistols and cartridges throughout the whole territory under his administration. A plot to assassinate the governor general was discovered in the middle of April, and soon afterwards it was reported that he had tendered his resignation, but had been prevailed upon to retain office. On May 19 a bomb doubtless intended for the governor general was exploded in Miodowa street at noon, killing its possessor, a workman, and two detectives and injuring 33 persons including three women, one student and two schoolboys.

Many threats had been made against the governor general principally since the May day disturbances.

State of Siege at Lodz.

Lodz, June 27.—The governor general has proclaimed a state of seige at Lodz.

The victims of last week's outbreak totaled over 1,200. Thus far the bodies of 242 Jews and 218 Christians have been buried. The wounded number over 700. Some semblance of order has been restored and the workmen are gradually returing to the factories.

Attack Governor's Palace.

Kyno, Russia, June 27.—A mob of a thousand persons surrounded and attacked the police station and the governor general's palace today. All the windows were broken before the rioters were overpowered by the police. Five policemen were wounded. A detachment of dragoons finally arrived on the scene and scattered the rioters.

Flames Fanned by Gale.

Cleveland, June 27.—Fanned by a stiff northwest gale a fire which broke out shortly before 2 o'clock this morning in the building occupied by the Willard storage battery company in the center of the wholesale district in St. Clair street, caused a loss of $100,000. The Willard Manufacturing company's building was gutted and the upper floors of the Fairbanks-Morse & Co.'s warehouse were destroyed. The roof of the Ferd. Brick & Co.'s building, south of the Fairbanks-Morse & Co.'s building in Water street, was on fire and sparks were being carried to other adjacent property when a terrific thunder storm intervened and checked the blaze. At 3 o'clock this morning the first was under control.

THROWN FROM MOVING CAR.

Switchman Dashed To Death In View Pleasure-Seekers.

Chicago, June 27.—In view of several hundred pleasure seekers Charles Worthwiller, a switchman has been thrown from a rapidly moving car of the Scenic Railway at South Side pleasure resort, falling to the ground 50 feet below. He died soon afterward at the emergency hospital. When the scenic train departed down the incline high in the air, Worthmiller and a companion were seated in the front of the car. As the car was being elevated to the depot Worthmiller stood up. He was warned of the danger but no heed to the caution. When the car started on its trip down the steep incline, running at a rate of 75 miles a hour, the man waved his arms and shouted. The next instant the car rounded up a curve. The jolt caused Worthmiller to lose his balance. He threw his arms out to catch himself and as he did so struck one of the posts. He was thrown from the car head foremost. When he was picked up Worthmiller was unconscious. He had landed on his head, fracturing his skull.

OHIO DEMOCRATS TO MEET.

Will Nominate Candidate for Governor and Other Officers.

Columbus, O., June 27.—Although the actual business of the Ohio Democratic convention does not begin until Wednesday morning the fact that the districts are to organize on Tuesday that the conventions committees have been called to meet Tuesday night before the convention itself has been called to order and that there is a lively contest on for the leading place on the ticket brought visitors and delegates to the city several days in advance.

John C. Welty, of Canton, expresses the utmost confidence in the result of the contest for governor. Only one thing seems assured today in that connection, and that is the probability of no choice on the first ballot. The votes for favorite sons of whom eight or ten are in the field, will reduce the likelihod of an early choice, and the present problem is the ultimate destination of this part of the vote.

The friends of John M. Pattison, of Clermont county, expressed confidence of their candidate's victory on the second or third ballot.

To Reclaim Aid Lands.

Reno, Nev., June 27.—The first great step in reclaiming the arid section of Nevada, which will go far toward the wealth and improvement of the state has been taken with the opening of the headgates of the Truckee river diversion canal, located about 2 miles west of Derby. Mrs. Francis G. Newlands broke a bottle of champagne over the headgates. The members of the congressional committee, including five out of the seventeen who drafted the national reclamation act; the lieutenant governor of Nevada, the governor of California, the distinguished body of citizens and legislators turned the cranks, the headgates lifted and the water from the high Sierra rushed through the canal to the thirsty grounds of the Nevada desert.

Mob After Negro Assassin.

Decatur, Ala., June 27—A street duel occurred at Leighton, C. W. Wright, former tax assessor of Lawrence county who was shot by Frank Daniels, a negro, died late Sunday. Bloodhounds followed Daniels' trail until it was lost in a swamp 6 miles from Leighton. Every effort is being made to locate the negro, but has failed up to this time. Great excitement prevails at Leighton, and if the negro is caught he will be lynched. A party of about 200 men from this city went to Leighton.

MAY CALL OUT ALL CHICAGO TEAMSTERS

This Is What Is Being Discussed In Windy City.

CONSERVATIVES OPPOSE PLAN

Hopes, However, Are Still Entertained of a Peaceful Solution of the Strike. If Radicals Control, 25,000 Men Will Be Idle.

Chicago, June 27.—Steps to be taken today by the conservative leaders in the teamsters' ranks were expected effectually to check a growing sentiment among the more radical element in favor of a general strike of all teamsters in Chicago to encourage a prompt ending of the existing struggle, either by accepting the employers terms or calling off the strike.

At present the main portion of the teamsters' army is intact, only 4,000 out of 27,000 being on strike. A general attack upon employers, it was declared, could result only in general disorder and disorganization and a call for the militia.

Meetings will be held tonight by the department store drivers and the railway and express drivers to vote on the question of accepting the peace terms of the employers. According to H. C. Cork, chairman of the peace committee of the teamsters' joint council, a favorable vote by these two locals would mean an end of the strike, as the other unions would follow. The terms are practically the same as were offered three weeks ago. Some changes in the phraseology have been made at the request of the teamsters' committee. One alteration, it is understood, was in the article concerning the wearing of union buttons in order to have it made clear that no employer objects to the wearing of union buttons provided they are not exposed.

WILL VISIT AMERICAN CITIES.

Delegates of Women Workers' League of Great Britain Here.

New York, June 27.—Fifty delegates representing the Women Workers' League of Great Britain and Ireland are expected to arrive here within a few days for a tour of the leading American cities. The delegation comprises women who have worked with the Countess of Warwick in endeavoring to better conditions among English among English working women.

They are coming to make a careful study of the conditions here and ascertain if there are any features of environment or method here which may be adopted with advantage to their sex in Great Britain. There are special delegates for all occupations. Trade unionism will have but little to do with the visit. As now planned, the delegation will spend about five days in New York and the remainder of their time in other large cities. They have planned to go as far west as St. Louis.

Race Riot in Indiana.

Vincennes, Ind., June 27.—City Marshal Combs, George Bells, A. S. Combs and an unknown negro who escaped, are more or less seriously wounded by bullets as a result of a race war which took place at Lawrenceville, a hamlet 5 miles west of this city, during a carnival. George Goinz, whose act of slapping a white man, precipitated the conflict, and who narrowly escaped lynching by an angry crowd, which had erected a gallows before it was dispersed, is in jail here. The unknown negro, who fled, is known to have been shot several times, but the extent of his injuries is unknown.

Woman Cannot Stop Crying.

St. Paul, June 27.—Mrs. Kate Wilbourn of Sioux City, Iowa, voluntarily presented herself to the board of insanity commissioners and asked to be committed to the state asylum as a result of four days' incessant and uncontrollable weeping. Otherwise she is perfectly sane but cannot stop crying. She hopes the hospital physicians can relieve her.

SHOCKING MURDER NEAR MIAMI CITY

C. E. Davis and Daughter Killed at Their Home.

FOUND DEAD IN THEIR BEDS

Crime One of the Most Shocking in the History of the State—Both Shot to Death—Both Father and Daughter Very Popular.

Miami, June 27.—The citizens of Miami and surrounding country were shocked to learn Monday morning that Charles E. Davis and his lovely daughter, Elsie, had been most brutally assassinated at their home on Saturday night.

The news spread like wildfire, and early in the morning hundreds of people from the city and the country wended their way to the Davis home, which is situated about four miles west from Miami.

Sheriff Frohock, with his usual promptness, summoned a jury, who, with Drs. Skaggs, Pugh and Vanlandingham, viewed the bodies.

Both Mr. and Miss Davis were shot while in bed. One shot killed Mr. Davis, and two were fired into the body of Miss Davis, one in each breast.

The crime is one of the most revolting ever committed in Dade county, if not in the entire State. Thus far, the officers have no clue as to who committed the dastardly deed.

The murder was committed some time during Saturday night.

Mr. Burbank had an engagement with Mr. Davis for Monday. Early Sunday morning he went to inform Mr. Davis that he would not keep the engagement. The doors in the lower part of the house were open, but Mr. Davis or the daughter were not there.

Again in the afternoon he went to the houre, finding the same conditions.

Early Monday morning he went again, and found everything the same as on his previous visit. His suspicions were aroused, and he went to the home of one of Mr. Davis' sons, and they went together to the house. Mr. Davis went up stairs, finding both father and sister murdered.

The young lady had two bullet wounds, one in each breast, and it was evident she had struggled hard for her life. Only one shot took effect on Mr. Davis, striking him in the neck and taking a downward course.

Several reports of threats were in circulation. One that Mr. Davis had been threatened by a negro whom he had had in his employ, while another was that he had had a difficulty with negroes over some watermelons. These were dispelled by statements of his sons, who say that they know of no such threats or difficulty, though they state that some weeks ago some person or persons, unknown, visited the field and destroyed a quarter of an acre or more of young melon plants. Their father never knew it or had any difficulty with anyone over the offense.

Never has this community been so excited as now. If the guilty party or parties are found lynch law will have its full sway.

Miss Davis was one of the most popular and beloved young ladies in this community.

Mr. Davis had been extensively engaged in the nursery business for years and was prominent as a business man.

The citizens of Miami have offered a reward of seven hundred and fifty dollars, the Merchants' Association two hundred and fifty dollars and the Elks two hundred dollars for the apprehension of the murderer of Mr. and Miss Davis.

STATE LANDS DECISION

Made by Judge Swayne Favorable to the Railroads.

Judge Charles Swayne of the United States Court on last Saturday, at Pensacola, decided one of the most important cases before him in a number of years. It was that of the Augusta, Tallahassee and Gulf Railroad Company against the Trustees of the Internal Improvement Fund of Florida, and was to compel the latter to give deed to certain lands aggregating thousands of acres which had been given to the company by an act of the Legislature in order to aid the construction of the Thomasville and Tallahassee Railroad.

The case, says The Pensacola Journal, was argued at some length about ten days since and many intricate questions of law were involved. Straley & Hasbrook of New York and Fred T. Myers of Tallahassee represented the plaintiffs in the suit, who are residents of New York, and R. W. Williams and William B. Farley represented the Trustees of the Internal Improvement Fund.

The suit came up on a demurrer to restrain the trustees from in any way conveying the lands in controversy or attempting to sell them and from encumbering them temporarily as well as permanently.

The company, so it is alleged, applied to the trustees of the Florida lands to convey the title of the grant, consisting of many thousand acres of unimproved lands in Western Florida to the company to encourage the construction of the road, but the trustees refused to give title.

The principal contention of the attorneys for the trustees was that the Legislature, after creating the Board of Internal Improvement Fund Trustees, did not have the right or authority to convey any lands within the State to any person or company without the consent of the trustees of that fund, and that the latter had the sole custody of the same, and was the only body which had a lawful right to convey or sell any of the property under its care.

Judge Swayne held that the Legislature had the right to transfer any lands that might lie in the State; and that it has created the Board of Internal Improvement Fund, and consequently had the power to take any steps that it might see fit. The act creating the board was passed about 1852, and the contention of the attorneys was that when this was done the control of all lands transferred to the State from the United States passed from the hands of the Legislature.

Although the case was decided against the State, it is very probable that it will be fought by the latter, and probably carried to the Supreme Court of the United States.

The decision of Judge Swayne is a lengthy one. He goes into the questions at issue at length, and cites the acts of Congress and the Florida Legislature, together with decisions of many courts upon cases of a similar nature. The decision covers about twenty typewritten pages.

Cured of Bright's Disease.

Geo. A. Sherman, Lisbon Red Mills, Lawrence county, N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." J. W. McCollum & Co.

Swells of Ancient Egypt.

From what has come down to us, written, painted or chiseled, the Egyptian lord must have been a great swell. The details of the twelfth dynasty show Egyptian elegance at its best. The lord has a male housekeeper, his maitre d'hote, called "superintendent of the provision house." There was a "superintendent of the baking house," and the mixer of drinks had the title of "scribe of the sideboard." Perhaps he was a butler and regulated the supply of wines from the cellar. There were gardeners, porters and handicraft men, all busy in attending to the master. "A preparer of sweets" must have been a confectioner. The Egyptian when he was no longer mortal had hopes of being well fed in the hereafter, as he believed he would be nourished in his particular heaven with abundant goose and beef. Offerings to gods show the variety of the Egyptian menu, and in one are included ten kinds of cooked meat, five kinds of birds or game, sixteen varieties of bread and cake, six assorted wines, four brews of beers, eleven sorts of fruits and an endless number of sweet things.

Flowers In Northern Russia.

An English traveler in northern Russia writes to the Gardener's Chronicle that nothing surprised him more than the universal presence of well grown flowering plants in dwelling rooms. Even in the cells of monasteries and in the studios of city photographers farther north than Archangel he found such plants as oleanders, crotons pelargoniums and fuchsias in almost every room. The double windows, so necessary to keep out the cold, have a draft tight space between them filled with flowering plants, and it does not seem necessary to open them for air during the short hot summer. From September to June the country is buried in snow and shut in by ice. The average temperature for January is only 10 degrees. The July temperature, however, has an average of 60 degrees F., which is hardly to be wondered at when it is remembered that the sun shines twenty-two hours out of the twenty-four.

Lost the Prize.

James Crossley, a noted English bibliomaniac, hied him one memorable day to a bookstall in Shudehill market and, spying a little volume, took it up and glanced carelessly through it. After awhile he asked its price from an old woman and was told it was two and sixpence. "I'll give you sixpence for it," said Crossley. "Nay," replied the poor old dame; "it cost me 2 shillings." Whereupon our book devourer threw it down in disgust and retired. A gentleman, overhearing the altercation, stepped forward and purchased it at the sum demanded. Crossley returned soon after and, noticing the book had gone, anxiously inquired what had become of it. "Sold," answered the woman, "for what you refused to give." "Tell me who bought it, and I'll give him 10 shillings for it!" said Crossley eagerly. The moral is self evident.

A Ray of Light.

The straightest thing in nature or art is a ray of light when passing through a medium of uniform density. Hence the eye is enabled to test the straightness of an edge or tube by holding it as nearly as possible coincident with a ray of light, such parts as depart from straightness then intercepting a ray and causing a shade to be cast upon other parts. It is not known at what early period in the history of mankind the discovery was made that straightness could be thus determined. It is certain that thousands of mechanics use the method daily without being able to give a rational explanation of it.

Motherhood

MOTHERHOOD is the reward nature bestows upon healthy womanhood. Women whose vitality has been sapped by disease cannot safely give birth to children. In pregnancy and in childbirth weakness of the mother is revealed in the pain and agony she suffers.

This great medicine drives out every vestige of inflammation and weakness, and gives tone and strength to the delicate organs which mature the child. The pains of pregnancy are banished by Wine of Cardui, and miscarriages, which blast so many fond mother's hopes, are prevented. Flooding, which so often occurs after childbirth, is corrected when Wine of Cardui is used during pregnancy.

Wine of Cardui babies are healthy babies, because, during the months of pregnancy, the mother is able to give them necessary vitality and strength.

With these facts presented to American women no expectant mother should be satisfied without the re-inforcement that Wine of Cardui will give her. Every mother should be able to treat herself in her home with this valuable medicine.

Wine of Cardui can be secured from any druggist at $1.00 a bottle.

Polycarp, N. C., Jan. 11, 1902.

I am the mother of seven children and while in pregnancy with the first six suffered untold misery until they were born. One month before the seventh was born I began to take a bottle of Wine of Cardui, which gave me relief after taking three doses. I used the remainder of the bottle until the birth of the child, and was stouter in three days after the birth than I was in a month after the birth of either of the first six. I am 29 years old.

THOMAS WILLIAMS CHOPPED HIS WIFE

Struck Her a Blow on the Head With an Axe.

NORTH GAINESVILLE EPISODE

Quarrel Over the Garden Truck—Colored Man Mad Because Relatives Were Sent Away From the Vegetable Garden.

The serenity of the quiet community of North Gainesville was much disturbed last evening, by one Thomas, better known as Tom Williams, colored, who assaulted his wife with an axe, and then flew from the wrath to come.

Laura Williams is much the better half of Tom and she carries on a truck garden where she brings forth from the earth such as cantaloupes, green corn, etc. Tom has at times been known to manifest sufficient interest in the industry to aid in the propagation of the crops, although he never did enough to impair his respiratory organs.

Laura intended the products to be a slight source of revenue as well as for home consumption, but Tom, like the generous, whole-souled helpmeet that he is, desired to share with his relations and gave the children of his sister free access to the crop.

This did not suit the fancy of his wife, who had done the best part of the work in the garden, and she ordered the children from the place when they came to feast on the results of her toil. The man of the family arose in his might, seized the axe and brought it down on the head of his spouse, cutting an incised wound in her head that required five stitches by Dr. J. Harvey Smith to close up the gaping wound. The skull showed a slight concussion. Although quite a severe blow, the woman will undoubtedly recover.

Marshal Pinkoson was notified, but Thomas had cut his lucky, and is probably now doing the Linevitch act in all haste. If he is run down he may have to answer to the charge of assault with intent to kill.

NEWS TERSELY TOLD.

Thornwell Haines, of South Carolina, has been appointed consul at Nanking, China.

George E. Macklin, general manager of the Pressed Steel Car company, at Pittsburg, died today of consumption.

Morgan H. Beach, United States attorney for the District of Columbia, has resigned and his resignation has been acepted by the president.

But one new case of yellow fever is reported on the Isthmus of Panama today by Governor Magoon. It is that of F. S. Foltz, an American trainman.

The river coal shipments to the south from Pittsburg during the past two weeks exceeded 15,000,000 bushels, breaking all June records. The final shipment was sent out today.

Elwell Garmen, convicted of murder in the first degree for the killing of William Murray, was found dead in his cell at Mifflintown, Pa., today. He committed suicide by drinking carbolic acid.

Nearly 200 carriage workers at the Barnet Carriage company's plant in Cincinnati struck today on account of reductions in wages. There is a possibility that the strike may extend to other carriage workers.

A Thousand Dollars' Worth of Good.

"I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain," says A. H. Thornes, a well known coal operator of Buffalo, O. "I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. J. W. McCollom & Co.

Will Climb Mount Rainer.

Portland, June 27.—The fourth outing of the Mazamas, a mountain climbing club of this city, will occur at Mount Rainer during July of this year and the outing will be accompanied by an unusual number of prominent scientists and college professors. Among thes. will be several members of the Appalachian club and the American Alpine club including Professor I. C. Russell, of the University of Michigan, and Professor I. C Tufts of Tufts college Massachusetts. The Sierras club of California, will send a party of one hundred or more among whom will be several prominent Scientists and professors from the University of California.

Sunday School Convention Meets.

Toronto, Ontario, June 27.—The International Sunday School convention resumed its session today. The lessons committee report was the first one to be taken up for consideration and Principla W. A. Falconer, L.L.D., of the Presbyterion Theological college, Halifax, gave an address on a "Teacher's Training."

Calling for More Harvest Hands.

Topeka, June 27.—T. B. Gerow, state employment agent, issued a call for 2,000 more harvest hands. The need is very pressing, as the wheat is ripe and cannot be harvested on account of the lack of help. The employment agency reports that less men than usual have come from other states to help in the Kansas harvest this year.

Mountain Fire in Utah.

Ogden, Utah, June 27.—A mountain fire which is not yet under control is raging north of here with a frontage of over a mile. The fire has already traversed 5 miles of territory, destroying fruit crops and hay stacks. Hundreds of men are endeavoring to keep the fire's path cleared for the safety of the homes in the vicinity.

Folly of Longevity.

The centenarian is a man who has mistaken quantity for quality. The centenarian's life is not always life at all. It is sometimes no more than a bad habit. They live longest who live least.—London Tatler.

Guessed It the First Time.

"Pa," said little Willie, who had been reading a treatise on phrenology, "what is a bump of destructiveness?"

"Why—er—a railroad collision, I suppose."—Philadelphia Ledger.

Judge—Raise your hand to take the oath. (The witness puts up the left one). Judge—Not that one. Witness—Which one?—Lustige Blatter.

Tax on Babies.

Extreme hot weather is a great tax upon the digestive power of babies. When puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they soon become strong, healthy and active. Sold by W. M. Johnson.

Preservative Peat.

Peat possesses wonderful antiseptic and preservative qualities owing to the presence of tannin, iron and other substances in it. Here is an instance: At the time of the covenanters, in 1685, three men were shot at a place called Crosegelloch on the moors above Old Cumnock, in Scotland. In 1825, when a monument was being erected to their memory, the workmen came upon the corpses rolled in their plaids. The bodies were in exactly the same state as when they were buried. The moss had preserved them as if they had been embalmed.

A Bad Scare.

Some day you will get a bad scare, when you feel a pain in your bowels, and fear appendicitis. Safety lies in Dr. King's New Life Pills, a sure cure, for all bowel and stomach diseases, such as headache, biliousness, costiveness, etc. Guaranteed at all druggists'; only 25c. Try them.

The Snow Line.

Snow, even in the tropics, never melts, but remains continuously all the year round above the height of 16,000 feet. In colder climes the snow line is much lower than this.

There will be mistakes in divinity while men preach and error in government while men govern.—Carleton.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Matchmaking In France.

A recent writer says of the commercial side of matchmaking in France: "In most French marriages money plays the important part. The first question asked by the young man is, 'How much?' As a rule, it is an easy matter to ascertain without applying directly to the papa, but even when no question of dowry is raised at the formal demand there is always a contract drawn up by a notary, which specifies the exact sum the girl receives."

A Man of Credit.

A distinguished Irish lawyer, always in impoverished circumstances, once took Chief Justice Whiteside to see his magnificently furnished new house in Dublin.

"Don't you think," he said, with a complacent look about, "that I deserve great credit for this?"

"Yes," the judge answered dryly, "and you appear to have got it."

A Serious Moment.

"Yes," said the married man meditatively, "when you see a woman hanging out a line of clothes and the line slips and lets the blessed lot down in the mud, that, my boy, is the psychological moment in which to leave that woman alone."

No Secret About It.

It is no secret that for cuts, burns, ulcers, fever sores, sore eyes, boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory of Hope, Tex. 25c at all drug stores.

SABBATH OBSERVANCE.

The following has been adopted by the ministers of Daytona:

"We, the undersigned ministers of Daytona, view with sorrow and deep regret the widespread tendency to desecrate the Sabbath day through excursions, pleasure seeking and trading. We call upon you, the members of our respective churches, not only to refrain from in any way countenancing this desecration, but to actively interpose your influence in securing a reverent observation of the sacred day."

The Sun can truthfully say that in this city there is less Sabbath desecration than in any town of its size in the State.

Now we have had a good roads convention, let's build some.

The latest civil engineering scheme in New York is a subway on end, so that the water will run out.

The Philadelphia political ring was considered one of the most solid in the country, yet it was "busted" to smithereens.

The new cigarette law will be in force in a few weeks. It will then be unlawful to sell or give away cigarettes in Florida.

The papers of the State are some of them of the opinion that the Tampa Mid-Winter Fair should put up for its mid-summer advertising.

There is no need of Russia sending men to the front. They are killing them fast enough at home, thus saving the cost of transportation.

When we get through trains to Jacksonville over the Coast Line, our people can make the trip without fear of being sidetracked several hours.

If the Jacksonville ball team don't get off the toboggan slide, the people of that city won't care if they don't have Sunday or any other day ball games.

It is said that Mrs. Aggie Myers of Liberty, Mo., smiled when sentenced to be hung for the murder of her husband. It probably wasn't a smile that won't come off.

The truth regarding Gainesville is all that is needed to prove to any one that we have as good a location as can be found in the State, and there are many pleasant spots in Florida.

An insane preacher was locked in the jail at Ocala with a lot of prisoners. He preached to them from 5 o'clock in the afternoon until 1 o'clock the next day, without interval, and never phased them.

A Gainesville doctor was called to see a man who was injured by a fall received while working on a new residence. After the doctor had visited upwards of a half-dozen new houses without finding his man, he realized the fact that there were several buildings going up in the city and he would be obliged to have more definite directions if he found his patient that day.

THE STATE UNIVERSITY.

Both Gainesville and Lake City have strong claims for the State University, and it will doubtless pass to one or the other. Both come in on the "already established" argument, and both can put up a fair plea for central location geographically, which is a condition required by the Buckman law. But Gainesville has the better claim as to central location, and the weight of popular favor seems now to be on the side of that city. West Florida will naturally pull for Lake City, and South Florida for Gainesville. Other towns may evince a desire to enter the lists, but with no State buildings already on the site, will have but little show in the final selection.

Jacksonville would doubtless raise all the money necessary to secure it if money alone could do it, but Jacksonville is not centrally located, and that is in the law.

After all, the people do not decide the matter, but the State board, and they will be in a better position to weigh the matter in all its bearings and make a wise decision than the people, who have neither the time nor occasion to make the matter a special study.

To this community it is immaterial which city is chosen, but if The Star had a vote to cast, with our present light on the matter, we would cast it for Gainesville.—Fernandina Star.

FROM THE STATE PRESS.

All signs point to Gainesville as the place that will be selected for the location of the State University. Lake City however may be getting in some inside work that doesn't show on the surface.—Dunnellon Advocate.

The Miami Metropolis joins with us in favoring Gainesville as the place for the new State University. Not that we have anything personal or, more properly, municipal, against Lake City only, for one thing, we would like it nearer home.—News, West Palm Beach.

Mr. F. B. Moodie of Lake City is out in a long letter in The Times-Union, in which he abuses the health of Gainesville, and praises that of Lake City, and incidentally gives a side-slap at Ocala. Mr. Moodie, who is a good deacon of the Baptist church, and who can write more words to the idea than any man who ever contributed to The T.-U., cites himself and family as instances of the healthfulness of Lake City. They have been there twenty-two years, he says; there were twenty-four of them, and only one has died. Now, we seem to remember, that some years ago Deacon Moodie wrote a letter to The Baptist Witness, then published in this office, in which he praised the Lord with great fervor for recovery from a sickness so severe that he (Deacon Moodie) went so far down in the dark valley that he could feel the cold waters of Jordan ripple against his toes. What we want to know is, did Deacon Moodie catch that sickness in Gainesville or Lake City. He can't blame it on Ocala, for he didn't visit hereabouts at the time. And if he is right certain that the Lord cured him of that sickness, how can he be sure that it hasn't been the goodness of the Lord, and not the climate of Lake City, that has kept him and his well (except that long fit of sickness) for twenty-two years. We would respectfully remark that when it comes to keeping people well, the Lord is just as much in evidence in Gainesville and Ocala as he is in Lake City.—Ocala Evening Star.

Jacksonville burglars are looking for big game. They broke into a wholesale house a few nights ago so as to save the retailer's rake-off.

PISTOL TOTERS.

The officials of Jacksonville, as well as other portions of the State, are looking around to see if something can't be done to put a stop to the traveling arsenals that are to be found in all the larger cities among the tough element. If this state of affairs continues, officers of the law will have to appear in steel armor in order to secure for them any degree of safety.

Revolvers are purchased of pawn shops by these desperadoes, who are as lawless as any to be found in the wild and woolly West. It is not alone in the Southern cities, but in the cities both North and South there is need of steps being taken to put a stop to the indiscriminate sale of weapons to every person who desires to buy.

Dealers in firearms should keep a list of those who purchase weapons or else should refuse to sell to every one who comes along.

A prominent doctor says that mosquitoes are breeders of disease. If they were only breeders of disease, the singing scoundrels might hold their heads up and look quite content. They are breeders of ill-temper, breeders of discord and of various and divers unpleasant remarks in the silent hours of night. If anything on this earth will make a man forget himself and strike and stab in the dark like an assassin, its a pesky skeeter. A man may retire in an amiable frame of mind and get up the next morning with only the frame. How the mischief people can maintain their religious fervor at a camp-meeting in skeeter time is more than some people can understand who try to be patient and bear the little ills that are inflicted upon the just and unjust.

After the Railroads.

Washington, June 27.—The attorney general has placed the matter of carrying out the president's directions to prosecute certain railroad corporations including the Atchison, Topeka and Santa Fe Railroad company, for giving rebates under the direction of Assistant Attorney General Purdy. The latter will devote all of his time for the present to this work, and has gone to Kansas City for that purpose.

CONSTIPATION

"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every 24 hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to you I am free from all that this morning. The new A. C. L. depot at Crystal River has been completed and it is a very neat structure.

The books at the Tampa Mid-Winter Fair are now being made. November 22d will be Fraternal day.

The National Bank of St. Petersburg will open for business on the first day of July. T. K. Wilson, cashier.

The Times says that the Seaboard Air Line officials assert that they will give Quincy better railroad facilities.

The appropriation is now said to be inadequate to make the improvements at Miami to have the harbor complete.

A number of St. Augustine young men have organized a stag club for their amusement and social enjoyment.

A barbecue was held at Winter Garden in the interest of the cemetery fund. Phantom soup would have been a good dish.

Manatee, says The Record, has not been treated fairly by the county school board. It is a shame to be niggardly toward the cause of education.

The lawyers of Tampa will try and get the two Wilders, arrested as being implicated in the killing of O. A. Brannen at Plant City, released on a writ of habeas corpus.

Lakeland has organized a company to fit up a park on one of their many parks where people can go for amusement and recreation and the company will have carriages to tote them.

Mrs. Anna B. Ansalone of Tampa has sued the Southern Bell Telphone and Telegraph Company for $15,000 damages for the death of her son by coming in contact with a wire at DeSoto park.

The Apalachicola Northern Railroad Company will hold a meeting in Apalachicola in July for the purpose of voting upon a proposition to increase its capital stock from $1,000,000 to $3,000,000

The "Smoking Tree," so called, near Mr. A. T. Hinckley's residence, attracts much attention. At sunset daily, what appears to be a black smoke, is seen coming from the top branches. No attempt to discover the origin has been made.—Apalachicola Times.

Letters patent have been issued by the secretary of State for the incorporation of the Miami Hardware Company with a capital of $50.000 for the purpose of buying and selling merchandise, such as hardware. Also to own and operate sailing and power vessels for the transportation of freight and passengers.

A number of prominent men are sparing neither time nor money to investigate thoroughly the Ormond electric light ordinance soon to be voted upon by the people of St. Augustine. Foremost among the investigators is Judge Corbett. The best legal advice is being secured for the enlightenment of the people and some developments will come to light within a few days.

J. T. Perkins, of Levy Bros.', brought to The True Democrat office Tuesday a monster tomato, of the Ponderosa variety, measuring about seventeen inches in circumference and weighing two and one-half pounds. This fine fruit was produced by Mr. Willis F. Quarterman of the Bradfordville neighborhood, and is a sample of what can be done on Leon county soil by those who know how.—Tallahassee True Democrat.

Filipinos Apt Scholars.

Washington, June 27.—Twenty years of the American educational system will make the Filipinos understand and love American institutions, according to Professor Thomas E. Dennis, of Alabama. Professor Dennis, who has just returned from Manila, says five years of the system in the archipelago have worked wonders. In almost every town in the islands is a school building, well provided with books and furniture. The pupils show wonderful aptness in learning English and take great delight in debating in the English tongue and in the study of civil government. Many able Filipino teachers are being developed.

Secretary Hay Suffers Relapse.

Newport, N. H., June 27.—Dr. Chas L. Scudden, a Boston specialist, arrived here on a special train from Boston during the night to attend Secretary of State John Hay, who had suffered a sudden relapse at Lake Sunapee, on Saturady of his nervous break-down, but grew very much better after the arrival of the physician, and today his condition became so favorable that Dr. Scudder arranged to return to Boston. Dr. Scudder attributes Secretary Hay's attack to a sudden cold contracted on his trip to Newbury. It is thought he will be all right in a day or two.

Stimulation Without Irritation.

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irratating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. J. W. McCollum & Company.

Eight Persons Drowned.

Rhinelander, Wis., June 27.—By the capsizing of a boat in Rainbow rapids in the Wisconsin river, near Newbold, a small station on the Northwestern road 6 miles north of Rhinelander, eight persons are reported to have been drowned. In the small craft were Mrs. Ezra Craw and Mrs. Edward Craw, wives of two homesteaders, with six children. All lost their lives.

Will Cure Consumption.

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of anyone using Foley's Honey and Tar and not being satisfied. J. W. McCollum & Co.

Acute Rheumatism.

Deep tearing or wrenching pains, occasioned by getting wet through, worse when at rest, or on first moving the limbs, and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Oleson, Gibson City, Ill., writes, Feb. 16, 1902: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." Sold by W. M. Johnson.

Army Worm In Alabama.

Tuscaloosa, Ala., June 27.—Barwell Mayfield, of Moore's Bridge, in the northern section of this county, reports having passed a great army of worms, which resemble the "army worm" which invaded this section some years ago, and playing havoc with the cotton crop. He described the worm as about the size of a caterpillar, with yellow stripes. The road for 100 yards was so lined with them that the earth could not be seen.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

TOOK POISON BEFORE GIRL.

Love Sick Youth Ends Life by Swallowing Carbolic Acid.

Memphis, June 27.—Believing himself to be a victim of unrequited love, Harry R. Grandison, 19 years old, swallowed carbolic acid within sight of his sweetheart, and after walking a few yards sank upon the lawn of a school house in North Memphis, where he and the object of his affections had been classmates for years, and expired before aid could reach him. To the girl's mother, a week ago, young Grandison had declared that he intended to take his life. This afternoon he appeared at the house of a neighbor, where the young lady was visiting, and asked for a bucket of water.

Just after he left the house he drew a phial of poison from his pocket and drank the contents.

Two letters were found in his pocket—one addressed to his mother, who is enroute to Cleveland, O., to attend the funeral of her mother; the other to his two sisters, in which he said:

"Try and take my life for an example and never make another think you love him better than life."

MOTHER KILLS FOUR CHILDREN.

And Then Attempts to End Her Own Existence.

Grand Lake, Colo., June 27.—Mrs. Watt C. Gregg shot and killed her four children and attempted to take her own life today. The woman is in a critical condition from a wound in the side and may not live till morning. The tragedy is believed to have been committed by the woman during a fit of temporary insantity.

Mr. Gregg, who was on his way to a neighbor's house, heard shots in the direction of his own home and hastily returning, found his wife lying wounded on the doorstep and three of the children lying on the floor in pools of blood. The other child was sitting in a chair dead. The children ranged in age from six months to eight years.

Train Load of Watermelons.

Thomasville, Ga., June 27.—Probably the largest individual shipment of watermelons ever sent out of this section was shipped by James McKinnon, a local comission merchant. The shipment comprised one entire trainload of about 30 cars. The melons were bought by Mr. McKinnon from Mitchell & Snodgrass, who have a 200-acre melon farm only a short distance from town. The melon crop is panning out nicely throughout this section. A great number of cars have been shipped loaded with melons averaging as much as from 35 to 40 pounds. This is considered unusual for a run of 800 melons, such as is required to fill a car.

Fatal Duel in Sick Room.

Paducah, Ky., June 27.—J. J. Spink, an Illinois Central railroad conductor, and his brother 1 law, J. J. Walters, a piano tuner, engaged in a pistol duel in a room of the former's home where his wife and their new-born baby lay. Spink was killed and Walters so badly wounded that he died a short time later. The infant died from shock and the mother is kept alive by artificial means. A trivial matter is said to have been the cause of the shooting. Spink had been a conductor on the Memphis branch of the Illinois Central railroad for a number of years.

Steamer Sinks a Schooner.

Cape Henry, Va., June 27.—Te Norwegian steamer George Dumois, Captain Sorensen, had her bow badly damaged in a collision at sea with the schooner Clara E. Bergen, Captain Edwards. The schooner was sunk, but the crew was saved by the Dumois. The Bergen sailed from New York on June 18 for Charleston, S. C. The Dumois is a fruiter and was on her way from Banes to Baltimore.

Died at Age of 97 Years.

Statesboro, Ga., June 27.—William Gould, possibly the oldest citizen of Bulloch county, died Saturday. His home was 2 miles from this place where he had lived for 65 years. He came here from Ireland in 1840. He was educated in his mother country for the Chatholic priesthood. He was 97 years of age and was a prosperous farmer.

Big Fire in Nashville.

Nashville, Tenn., June 27.—Fire in the retail shopping district caused damage estimated at between $500,000 and $650,000. The flames were discovered in the Palace, a big department store, occupied by Harris Bros. and Jacobus Bros., at the southwest corner of Fifth avenue and Union street. The flames spread rapidly but were soon gotten gotten under control.

DUST OF THE DESERT.

It Is an Affliction, but It Is Not Impure, Like City Dust.

A traveler in Egypt writes: "With all its heat and dust the desert has its charms. True, the desert dust is an affliction, for when certain evil winds blow the desert is shrouded in dust—vast swirling clouds through which no eye can see. But when the dust storms have blown over and the desert is calm again you forget the dust, for the desert dust is dusty dust, but not dirty dust. Compared with the awful organic dust of New York, London or Paris it is inorganic and pure.

"On those strips of the Libyan and Arabian deserts which lie along the Nile the desert dust is largely made up of shredded royalty, of withered Ptolemies, of faded Pharaohs, for the tombs of queens and kings are counted here by the hundreds and of their royal progeny and their royal retainers by the thousands. These desiccated dynasties have been drying so long that they are now quite antiseptic.

"Dust of these dead and gone kings makes extraordinarily fertile soil for vegetable gardens when irrigated with the rich waters of the Nile. Their mummies are also said to make excellent pigments for the brush. Rameses and Setos, Cleopatra and Hatasu—all these great ones dead and turned to clay—when properly ground make a rich umber paint highly popular with artists."

The Stuart Kings.

The family name of the Stuarts was originally, as Mr. Bayley observes, Fitzalan. The original Walter Fitzalan, brother of the ancestor of the dukes of Norfolk, was lord high steward of Scotland, and from this circumstance his branch of the family appears to have adopted the name of Stewart. When the change began is not certain, but it was probably not later than the time of Alexander, the great-grandson of Walter Fitzalan, for both his sons—James, the grandfather of Robert II. and all the Scottish Stewart kings, and John, the ancestor of Lord Darnley—appear to have borne the name of Stewart.—Notes and Queries.

The Lesser Evil.

"I don't see why you asked Mr. Bohr to sing," said the popular girl's sister.

"I hated to do it," was the reply, "but it was the only way to make him stop talking."

To the Manner Born.

A Japanese Test.

In Japan it appears that one factor entering into the choice of a daughter-in-law is her skill in raising silkworms. There is more to this than appears on the surface of the statement, for it seems that the thread spun by a silkworm is regular and even in proportion, as the worm has been regularly and carefully fed. The prospective mother-in-law carefully and minutely examines the garments of the aspiring bride, judging of her qualifications by their condition.

The Man Who Never Kicks.

There are some people who through slackness, indifference or sheer terror of their fellows go through life suffering many unpleasant things without protest. They dislike "fuss" or they are too careless or happy go lucky to assert themselves; hence they come off badly everywhere. These are the men who always get the uncooked chops and the tough cuts off the joint.—London Saturday Review.

An Altered Case.

Ascum—Have you seen anything of Jiggins lately? Doctor—Yes. I prescribed a trip to Europe for him only this morning. Ascum—Indeed! He's getting wealthy, isn't he? Doctor—Well, I can remember when I used to prescribe for him simply a dose of sodium bromide for the same complaint.

A Prudent Suggestion.

"Many people have suffered embarrassment because of their social aspirations."

"Yes," answered Miss Cayenne. "Before you insist on getting into the swim you want to make quite sure you are a swimmer."—Washington Star.

Dying of Famine

Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at all drug stores. Price 50c and $1 a bottle. Trial bottle free.

EXERCISE THE EYES

GYMNASTICS THAT MAY WORK AWAY THE NEED FOR GLASSES.

A Course of Treatment Which Will Strengthen the Muscles and Which Is Indorsed by an Expert In the Treatment of the Eyes.

Eye gymnastics constitute one of the applications of the principles of practical physical culture as employed for the purpose of restoring normal conditions to the diseased body. Anything which will obviate the necessity of putting on glasses is to be welcomed, as everybody who has become a slave to spectacles will agree. In many cases of muscular weakness of the eye certain exercises which may be taken at home without apparatus will result in a cure. The symptoms of muscular weakness include pain through the eyes and a tendency on the part of the lids to close. Sometimes it becomes difficult to keep the eyes open, and there is a vague sensation as though some invisible force was tugging at one side of the eye until the victim wonders if he is not becoming cross eyed. In such cases strong glasses support the weakened muscles and relieve the symptoms, but they do not effect a cure. Sometimes they are necessary, but often, on the contrary, persistent and systematic exercising of the muscles will restore them to a condition of health.

Let the first exercise be taken for the purpose of strengthening the muscles of accommodation. Extend the hand at arm's length with the first finger pointing upward. Fix both eyes on this digit and slowly bring it toward the face until it touches the tip of the nose. Then slowly carry it away from the face again until the first position is reached. Do this three or four times at first, keeping both eyes constantly upon the raised finger throughout the operation described.

The second exercise consists in turning the glance upward and then downward as far as possible without altering the position of the face. Repeat this two or three times at the first trial, and then vary the exercise and bring a new set of muscles into play by turning the eyes first to the right and then to the left as far as possible, the face remaining motionless. After two or three movements of this character, with the face still in the same position, carry the glance to its full extent first to the upper right hand corner of the eye, after that to the lower left hand corner, then to the upper left hand corner and from there to the lower right hand corner.

To complete the series of exercises rotate the eyeballs in their sockets two or three times, causing the glance to reach the extreme limit of vision in making the circle.

It is necessary that these exercises be employed with caution at first, for otherwise they will tire the muscles and bring on dizziness or headaches. The fact may be hard to realize, but the whole practice is exactly the same in character and effect as the exercising of the muscles of the arm or leg, and it is just as certain that the muscles of the eye will be strengthened and developed by the movements described.

Persons who are troubled with weak eyes may often secure considerable benefit from the use of the eye cup. This is a small receptacle of thick blue glass and so constructed that when inverted it fits tightly over the eye. It costs 15 or 20 cents at the drug stores and should be used night and morning. The eye cup is employed for the purpose of applying salt and water to the eye as a tonic. The proportions should be a level teaspoonful of salt to a pint of water. The latter should have been warmed to about the heat of the body. Fill the cup with the solution and place it over the eye. Then turn the head backward and open the lids. It will be found that there is no unpleasant feeling whatever from the contact of the salt solution with the eye. As a matter of fact, this solution is almost identical with the saline fluids of the eye. Should the water be used without the salt it would cause the eye to smart painfully.

Slight attacks of granulation of the eyelids may be cured by the use of absolutely pure olive oil, one drop being allowed to enter the eye twice a day. In dropping medicaments into the eye place the finger just under the lower lid and draw that lid out a trifle, allowing the remedy to fall upon it. This is a simple way of accomplishing what many people consider a difficult proceeding.

Above all, in dealing with the eye it should be remembered that much depends upon the condition of the general health. A debilitated state of the system is very apt to show itself in the eyes. These delicate organs depend upon the blood to keep them in good order, and rich blood and an unimpaired circulation are of primary importance. This calls for plain, nourishing food, an abundance of fresh air and a moderate amount of exercise.—Good Housekeeping.

Napoleon and His Tutor.

Napoleon was a great soldier, but he could not spell. His handwriting was also so bad as to give rise to the rumor that he used undecipherable characters to conceal the fact that he, the master of Europe, could not master French orthography. In the early days of the empire a man of modest aspect presented himself before the emperor.

"Who are you?" asked Napoleon.

"Sire, I had the honor at Brienne for fifteen months to give writing lessons to your majesty."

"You turned out a nice pupil!" said the emperor, with vivacity. "I congratulate you on your success!" Nevertheless he conferred a pension upon his old master.

A WOMAN WITH A WILL.

The Way Jessie Bartlett Davis Once Collected Her Salary.

Jessie Bartlett Davis was a woman of indomitable will and with a stock of self confidence born of a healthy outdoor life. When not engaged in theatrical life her entire time was devoted to outdoor pursuits. On her ranch in California she tamed and rode bronchos, herded cattle and sheep and attended to her chickens with equal facility. This combined to make her a good business woman and with the muscular activity to back it.

Mrs. Davis was once engaged to sing in a vaudeville company in New York city. The manager of the theater was famous for his negligence in meeting demands of performers whom he had engaged, and, in fact, there were ugly rumors about checks bearing his signature being returned from the bank with the ominous words "No funds" written across their faces.

At the conclusion of her week's engagement Mrs. Davis received a check for her salary. That was Saturday night, and it was an open secret to everybody that she had engaged passage on a steamship leaving the following Wednesday for Europe, where she had planned to take a long rest. The proprietor of the Broadway hotel where she was stopping obligingly cashed the check. It was returned to him Tuesday afternoon as worthless.

Mrs. Davis took back the repudiated paper and smiled grimly. "I will make it all right this evening," she said. Armed with a stout cane she went to the manager's office that evening, the stick serving as excuse for a limp due to a "slight sprain," she announced. The manager received her with evident embarrassment and listened to the story of the check told quietly and in moderate language.

"It was a mistake on the part of his bookkeeper," he explained. The stupid fellow should have known that the manager's account in that particular bank had been closed out long ago. But if Mrs. Davis would wait a few minutes he would give her a check on another bank which would be honored without fail.

But Mrs. Davis was not accepting checks. She was to leave for London the next morning and nothing but the hard, cold cash would satisfy her. The manager was obdurate and Mrs. Davis politely insistent. Then it developed into a wordy war, and Mrs. Davis arose with the cane in hand. Handling it like a foil, she passed the ferrule lightly through the glass door of the manager's office. Another pass and the ferrule broke one of the window panes. The clatter of glass brought a half dozen employees to the spot. The manager danced around as if on a hot stove and begged her to desist. The scandal, he said, would ruin him. By way of reply Mrs. Davis punctured another window.

One of the employees, who was a relative of the manager, rushed forward to disarm her. The cane circled in the air, and the man retreated nursing a big welt across the back of his head.

The audience was just entering the theater and the crashing of glass caused many to stop and conjecture the cause. Mrs. Davis, smiling with the utmost good nature, moved to the other side of the office and gazed critically at the glass of a large picture—the manager's favorite possession.

"Stop!" he almost shouted. "You shall have your money." A messenger was dispatched to the box office with an order. He returned in a few minutes with a huge roll of bills, which Mrs. Davis carefully counted and stowed away. Then, bidding the manager a smiling good night, she swept out of the office and to her hotel, where the bad check was redeemed and added to her collection of souvenirs of her experiences on the stage.—New York Press.

A Designing Doctor.

The Sydney Bulletin tells of a motoring doctor who ran into and capsized a pedestrian. He looked behind him and, seeing the man still prone, made a circuit and ran back, intending to stop beside and help him. But the motor shot a yard or two beyond the mark and hit the man again just as he was getting up. The doctor turned his car once more and was cautiously stealing near to the prostrate sufferer when an excited spectator rushed from the sidewalk and, shaking the victim, exclaimed: "Look out! He's coming at you again!" Whereupon the man scrambled up and started to run.

The Flag of England.

"I am amazed," writes an American visitor, "at what seems to be a custom in England of blowing loud trombone blasts on the human nose. In first class railway carriages, restaurants, churches, in the street, one is startled by these sounds, generally explosive, sometimes sustained. Old men, children and delicate ladies seem to be adepts at it. Is it a mark or a sound of delicate breeding?" It is merely an instance of the national manners that differ in spite of good communications.

An American is startled at the trombone of the English nose. But the Englishman always has a cold, and that fact sets the note of the national manners. And as we travel we find many startling things. We note that the German makes strange uses of his knife at table. Reaching the summer resorts of the Black sea we find the neighboring lady bathing without a bathing dress. It is merely a matter of latitude. The flag of England is the handkerchief, and the morning bugle is the nose.—London Chronicle.

Bridegrooms Ignored.

Bridegrooms are usually considered necessary to the wedding festivities the world over, about the only land where they are regarded as unnecessary being Polynesia. There the young man who would a-wooing go turns the matter over to his parents and friends and takes to the woods—no difficult matter in that part of the country. The family proceed to traffic with the parents of the bride elect, and after a more or less extended palaver the arrangements are brought to a satisfactory conclusion. Then ensues a festal time, with feasting, speechmaking and other forms of celebration until at last the nuptials are announced and the groom makes his appearance among his friends, in theory at least, sufficiently hungry for human companionship to regard his bride with more than usual complacency.

Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease as that of C. F. Collier of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by all druggists; price 50c.

True Advancement.

The system practiced by Dr. E. H. Armstrong of Jacksonville, and his large staff of assistants and experts, for the overcoming of all eye troubles and chronic diseases without drugs or operations, is a step far in advance of anything heretofore heard of in this line.

They remove causes instead of treating effects; they prove that 85 per cent of all the so-called diseases are not diseases at all in the sense generally understood, but are merely functional derangements due to some mechanical defect or improper chemical reaction in the body.

They correct the mechanical defects by mechanical means and set up a proper chemical reaction by prescribing a diet founded upon the chemical values of the different foods. They claim that drugs or operations are not necessary in 85 per cent of cases where taken. They prove that the eyes are the controlling medium of the entire nervous system, and as 90 per cent of all eyes are defective, though vision may be perfect, they are more often the cause of systematic complications than any other source.

They handle all cases of diseased eyes as well as defective vision, and all chronic disorders, and there are few of their patients who do not regain perfect health in ninety days. Their system is known as Ophthalmology and Neurology.

Dr. Armstrong will be here personally, at the Brown House, June 30 and July 1st. See him and have a talk about your case. You can easily become well.

JAMES PROUD DEAD.

One of the Old Residents Passes Away in Indian Territory.

Many old residents will be surprised to learn of the death of the venerable James Proud, which occurred at Muskogee, Indian Territory, on Saturday, June 17th, 1905.

Uncle Proud was a noted character in Gainesville, where he resided for upwards of twenty-five years, being engaged in business the greater portion of that time, conducting a bakery and restaurant, continuing quite active although past 80 years of age. He went to Mississippi to visit a son, but returned again to Gainesville, declaring there was no place like it.

In his younger days Mr. Proud was engaged in the circus business, and was at one time with the great P. T. Barnum Shows. He was also quite a hand at training animals, such as horses and dogs, and while a resident here he used to have his horse or dog trained to do many tricks. Always good-natured and full of life he would be ever ready for a joke, and would remark that he was "the Proudest man in town."

He was a member of Gainesville Lodge No. 41, F. & A. M., and was possessed of a very kindly and charitable disposition toward his fellow-men. Before he left Gainesville for the last time, some three years ago, he sold a 35-acre farm in North Gainesville to M. B. Saunders, and he used to put in much of his time looking after this land.

He had two sons and was married to his second wife, who survives him. Although he must have been upwards of 86 years of age, he was quite active when last here, and would have passed for a man much younger.

In business he always took pride in dealing fairly with all he came in contact with, and we never heard a man say aught against Uncle James Proud.

WORTHINGTON SPRINGS.

Many People Stopping at This Popular Health Resort.

Worthington Springs, June 27.—J. W. Davidson of Atlanta, Ga., is a guest of the family of Capt. J. W. Wells.

Mrs. Luther McDonald has returned to her home at Fairbanks, after a visit to the springs.

O. Shaw, who has been here for a week, has returned to his home in Alachua.

Misses Lanier Aycock, Margaret Boston and Pett Wells are again here, after a delightful trip to Atlanta.

A picnic and dance are planned for the Fourth, and as everybody is invited a jolly time is anticipated.

Louie McClenny of Cadillac, who has been away for a short time, is again a guest at the Worthington.

The Worthington has been entertaining a large number of people from Gainesville during the past week or more. Among them are Mr. and Mrs. S. J. Thamas and son, J. H. Truby and a number of others.

Treasurer Robertson Improving.

The Sun is in receipt of a letter from County Treasurer Wm. H. Robertson, from Rock Hill, S. C., where he has gone for his health. He states in his letter that he is slowly improving and hopes to return home in two or three weeks. The news of his improving health will be received with much rejoicing by the many friends of our highly esteemed citizen and public official.

Notice to Water Takers.

The water rents for the quarter ending September 30th, 1905, will be due and payable to T. B. Ellis, collector of revenue, on or before July 10th, 1905. The rules regarding the cutting off of water and turning on the same will be rigidly enforced by recent order of the City Council, if not paid at the proper time. J. M. DELL, City Clerk.

Attention, Ye Needy.
